Summary

Accounting advisory professional with 7 years of experience modernizing financial operations and bringing structure to complex, high-growth environments. Dual-certified as a CPA and CMA, with a consulting background spanning client audits, managing accounting teams as an interim controller, and building accounting infrastructure from the ground up.

Experience

Connor Group Jun 2021 – Present

Manager (2024 – Present) *Durham, NC*

- Transformed nine-figure revenue workflow at Scale AI for their largest enterprise customer, reporting directly to C-suite and redesigning the process end-to-end to cut cycle time from 25 days to 4
- Overhauled \$1B+ PE-backed client's accounting workflow as Interim Controller, directing a 3-person team in transition from cash-basis to GAAP accrual reporting
- Steered month-end close, audits, and M&A transactions across HealthTech client portfolio using NetSuite, delivering results that expanded engagement scope
- Led end-to-end Ramp implementations for thousands of employees, automating workflows and spend management across hundreds of vendors

Supervising Senior (2021 – 2024) *Durham, NC*

- Built a cross-functional partnership between Finance and Engineering, utilizing SQL to align data structures and transform monthly reporting into a daily operation
- Designed and implemented a foundational billing process, restructuring data to identify and capture \$1M in previously unbilled revenue

BDO USA, LLP Oct 2019 – Jun 2021

Experienced Audit Associate *Salt Lake City, UT*

- Standardized revenue and COGS analytical procedures for a \$500M+ multi-unit franchise operator, increasing audit efficiency by 20% across hundreds of retail locations
- Coordinated financial statement audits for multiple mid-size clients simultaneously, delivering on time while reducing engagement hours year over year

Education

Brigham Young University Provo, UT

Bachelor of Science, Accounting Apr 2018

Master of Accountancy, Information Systems Minor Apr 2019
